GENERAL TABLE OF CONTENTS

Letter of Transmittal................................................................. iii

INTRODUCTION

Scope of the Inquiry................................................................. vii
Method of classification............................................................ vii
Changes classification of occupations........................................ viii
Occupational classes, 1921......................................................... viii
Office procedure, 1921.............................................................. ix
Extracts from Book of Instructions............................................. ix
Analysis of results—
Population 10 years of age and over, 1881-1921........................ xii
Persons gainfully employed....................................................... xiii
Percent of population gainfully employed.................................. xiii
Ratio of female to male workers................................................ xiv
Changes in classification index, of occupations........................... xv
Relative rank of occupational groups in 1911 and 1921 on basis of 1911 classification... xvi
Industries ranked in 1921 by number of males employed............... xvii
Population by sex and age.......................................................... xvii
Percentage of population between 18 and 64 years....................... xix
Percent distribution, male population, 10 to 74 years, gainfully employed........ xx
Percent distribution, female population, 10 to 74 years, gainfully employed.... xxii
Persons employed by sex and age................................................ xiii
Employment and school attendance of juveniles........................... xxvi
Gainfully employed females in ages 20 to 64 years....................... xxviii
Occupations of women 65 years and over.................................... xxix
Occupations of males by age groups.......................................... xxx
Occupations of females by age groups....................................... xxxi
Distribution of workers by ages and occupational groups................. xxxii
Primary and manufacturing groups by ages and classes................ xxi
Measure of occupational representation by age groups................ xxi
Male workers in certain occupations by age groups..................... xxxiv
Percent distribution of male workers in certain occupations by ages.... xxxv
Female workers in certain occupations by age groups.................... xl
Percent distribution of female workers in certain occupations by ages.... xx
Children, by occupations......................................................... xli
Gainfully employed in cities................................................... xli
Males 14 to 19 years of age at school or gainfully employed in certain cities... xlviii
Females 14 to 19 years of age at school or gainfully employed in certain cities... li
Distribution of gainfully employed by nativity, 1911 and 1921........... liv
Variation in proportions employed of native born and immigrants, by industries, 1911 and 1921............ lv
Distribution of male population 10 years of age and over by nativity, 1921... lvii
Distribution of the female population 10 years of age and over by nativity, 1921 lviii
Percent male population 10 years of age and over is of the total male population, 1921 lxi
Percent female population 10 years of age and over is of total female population, 1921 lxii
Distribution by nativity of males gainfully employed, 1921............. lxi
Distribution by nativity of females gainfully employed, 1921........... lxxi
Percentage of males 10 years of age and over employed, by birthplace, in each province, 1921.............. lxiii
Percentage of females 10 years of age and over employed, by birthplace for provinces, 1921.............. lxiii
Gainfully employed males by occupational groups and birthplaces, 1921........ lxiv
Gainfully employed females by occupational groups and birthplaces, 1921 lxvi
Gainfully employed males in certain occupations, 1921................... lxviii
Percent distribution of male workers by occupations and birthplace, 1921........... lxix
Measure of representation of nativity groups in certain occupations, 1921........... lxxi
Gainfully employed females by occupations and birthplace, 1921........... lxxii
Percent distribution of gainfully employed females, 1921................. lxxii
Measure of nativity representation in certain occupations, 1921............ lxxiii

TABLE OF CONTENTS

Letter of transmittal.......................................................... m
Errata.................................................................................. iv

INTRODUCTION.................................................................. ix

Data of censuses.................................................................... xi
Year to which census figures apply........................................ xi
Definition of farm................................................................ xi
Inclusion of items elsewhere than on farms............................ xi
Method of obtaining values.................................................... xi
Nature of data collected at different censuses......................... xi
Treatment of agriculture on Indian reserves........................... x
Accuracy of census figures..................................................... x

Farm holdings and areas—
  Total land area................................................................ xi
  Possible farm land and area occupied................................. xi
  Increase in population, farm holdings and acres, 1901-1921.... xi

Condition of farm land—
  Proportion of improved and unimproved land in farms, 1901-1921
  Uses of improved land, 1921............................................. xvi
  Kind of unimproved land, 1921........................................... xvi
  Proportion of each class of farm land to total acreage, 1921.... xvii

Size of farms—
  Farms and farm acreage classified by size, 1921................ xvi
  Farm holdings by size, 1901-1921.................................... xxiv
  Per cent distribution of farms by size, 1921, 1911 and 1901... xx

Tenure of farms—
  Farms and farm acreage classified by tenure, 1921............. xxiii
  Farms partly owned and partly rented............................... xxiii
  Classes of rented farms................................................... xxiii
  Farms classified by tenure, 1901-1921............................... xxv
  Per cent distribution according to tenure, 1901-1921............ xxvi

Tenure of farms according to size, 1921............................. xxvii

Value of farm property—
  Value of farm property, 1901-1921................................ xxii
  Proportional increases in value of farm property, 1901-1921... xxii
  Per cent distribution of production of principal crops, 1901-1921
  Proportionate value of land, buildings, implements and livestock, 1901-1921
  Distribution of value by provinces, 1901-1921................... xxiii
  Average value per farm, 1901-1921................................ xxiv
  Average value per acre, 1901-1921................................ xxiv
  Average value per acre improved, 1901-1921.................... xxiv

Rent of farm land............................................................... xxv

Farm facilities................................................................. xxvii

Farm expenses—
  Labour............................................................................. xxvi
  Feed.................................................................................. xxvii
  Fertilizer.......................................................................... xxvii
  Seeds............................................................................... xxvii
  Average per acre............................................................ xxvii
  Average per 100 acres improved land............................... xxviii

Value of farm products—
  Value of all agricultural products, 1900-1920................... xxxviii
  Value by classes, 1900-1920............................................ xxxviii
  Per cent variation of each class by provinces, 1910-1920..... xl
  Average value per farm, 1920......................................... xli
  Average value per 100 acres improved land, 1920............... xli
  Per cent distribution of value by provinces, 1920.............. xli

Field crops—
  Proportion of farms growing certain crops, 1921................ xliii
  Proportion of total crop acreage in certain crops, 1921...... xliii
  Per cent distribution of acreage of principal crops by provinces, 1921
  Average acreage of principal crops per 100 acres improved land, 1921
  Comparison of field crop acreages, 1921 and 1920............. xliiv
  Acreage under various crops, 1890-1920.......................... xlii
  Per cent distribution of field crop acreage by provinces, 1890-1920
  Per cent distribution of field crop acreage by crops, 1890-1920
  Average acreage of field crops per holding, 1900-1920........ xliii
  Production of field crops, 1890-1920................................ xliii
  Per cent distribution of value by principal crops, 1890-1920
  Average yield per acre, 1890-1920................................ xliii
  Crop failure, 1920.......................................................... xliii
  Principal crops harvested by certain crops, 1920 and 1910.... xliii
  Three principal crops according to value, 1920................ xliii
  Average value of each crop per unit of quantity, 1920........ xliii
  Average value of each crop per acre, 1920..................... xliii
  Analysis of increase in value, 1900-1920......................... xliii

### Fruit trees, fruit and maple products—
- Number of farms reporting
- Acres in fruits, 1901–1921
- Number of fruit trees, 1901–1921
- Production of orchard fruits, 1890–1920
- Production of grapes and small fruits, 1900–1920
- Per cent distribution of production of fruits by provinces, 1920
- Maple products
- Value of individual fruits and maple products

### Forest products on farms—
- Area of woodland in farms, 1901–1921
- Quantities of forest products, 1920 and 1910
- Value of forest products for Canada, 1920 and 1910
- Total value of forest products by provinces, 1920 and 1910
- Average price per unit, 1920 and 1910
- Average value per farm, 1920 and 1910
- Average value per 100 acres woodland, 1920 and 1910

### Total forest products of Canada—

### Livestock—
- Number of live stock in the Dominion, 1891–1921
- Value of stock in the Dominion of Canada, 1901–1921
- Number of live stock per farm, 1901–1921
- Number of live stock per 100 acres improved, 1901–1921
- Number of live stock per capita, 1901–1921
- Number of farms reporting live stock, 1921
- Increase per cent in number of horses, 1901–1921
- Increase per cent in number of cattle, 1901–1921
- Increase per cent in number of sheep, 1901–1921
- Increase per cent in number of swine, 1901–1921
- Average value of horses per head by provinces, 1901–1921
- Per cent distribution of number and value of horses by provinces, 1901–1921
- Per cent distribution of horses according to age, etc., 1921
- Number of milch cows, 1901–1921

### Cattle—
- Number of cattle by provinces, 1901–1921
- Increase per cent in number of cattle, 1901–1921
- Increase per cent in value of cattle, 1901–1921
- Average value of cattle per head, 1901–1921
- Per cent distribution of number and value of cattle by provinces, 1901–1921
- Per cent distribution of cattle according to age, etc., 1921

### Sheep—
- Number of sheep by provinces, 1901–1921
- Increase per cent in number of sheep, 1901–1921
- Increase per cent in value of sheep, 1901–1921
- Average value of sheep per head, 1901–1921
- Per cent distribution of number and value of sheep by provinces, 1901–1921
- Per cent distribution of sheep according to age, etc., 1921

### Swine—
- Number of swine by provinces, 1901–1921
- Increase per cent in number of swine, 1901–1921
- Increase per cent in value of swine, 1901–1921
- Average value of swine per head, 1901–1921
- Per cent distribution of number and value of swine by provinces, 1901–1921
- Per cent distribution of swine according to age, etc., 1921

### Poultry—
- Number of poultry by provinces, 1901–1921
- Increase per cent in number of poultry, 1901–1921
- Increase per cent in value of poultry, 1901–1921
- Average value of poultry per head, 1901–1921
- Per cent distribution of number and value of poultry by provinces, 1901–1921
- Number of each kind of poultry, 1901–1921
- Percentage of hens and turkeys, old stock and young stock, 1921

### Bees—
- Number of hives of bees by provinces, 1901–1921
- Increase per cent in number of hives, 1901–1921
- Increase per cent in value of hives, 1901–1921
- Average value per hive, 1901–1921
- Per cent distribution of number and value of hives by provinces, 1901–1921

### Pure-bred live stock—
- Number of farms reporting pure-bred live stock, 1921
- Percentage of farms reporting pure-bred live stock to all farms reporting live stock of all kinds, 1921
- Per cent of pure-bred live stock to all live stock, 1921 and 1911
- Per cent of pure-bred live stock to all live stock of all kinds, 1921

### Stock sold alive off farms

### Stock slaughtered on farms

### Young animals raised on farms

### Comparison of young animals raised with stock sold alive and stock slaughtered

---

**INTRODUCTION—Con.**

---
INTRODUCTION—Con.

Animal products—
Value of all animal products, 1920 and 1910
Production and value of milk, 1920 and 1910
Average production of milk per cow, 1920 and 1910
Average value of milk per pound, 1920 and 1910
Disposition of milk produced on farms, 1920
Production and value of home-made butter, 1920-1929
Production and value of shorn wool, 1920-1910
Production and value of eggs, 1900-1920
Production and value of honey and wax, 1900-1920
Produce of livestock, 1900-1910
Value of wool produced, 1900-1920
Average value of wool per pound, 1900-1920

Age, birthplace, residence and farm experience of operators—
Birthplaces of farm operators
Portion of resident and immigrant operators
Age of farm operators
Number of years a farmer
Number of years on present farm

Summary of agriculture on Indian reserves

Agriculture in Yukon territory

GENERAL TABLES

Comparative tables by provinces, 1901-1921

Table 1. Population, farm holdings and areas, 1921, 1911 and 1901
Table 2. Farm holdings by size for provinces, 1921, 1911 and 1901
Table 3. Tenure of farm lands by provinces, 1921, 1911 and 1901
Table 4. Area of farm land by provinces, 1921, 1911 and 1901
Table 5. Value of farm property by provinces, 1921, 1911 and 1901
Table 6. Average value of property per farm and per acre, by provinces, 1921, 1911 and 1901
Table 7. Value of farm products by provinces, 1920, 1910 and 1900
Table 8. Areas of field crops by provinces, 1920-1921
Table 9. Yield of field crops by provinces, 1920, 1910 and 1900
Table 10. Value of field crops by provinces, 1920 and 1910
Table 11. Fruit—trees, 1921, production and value, 1920, by provinces
Table 12. Forest products of farms by provinces, 1920 and 1910
Table 13. Animal products by provinces, 1920, 1910 and 1900
Table 14. Live stock by provinces, 1921, 1911 and 1901

Detailed tables by provinces, Census of 1921

Table 15. Farms and farm property, 1921; farm expenses and value of products, 1920, by provinces
Table 16. Forms of tenancy and rent paid by provinces, 1921
Table 17. Farms reporting various crops by provinces, Census of 1921
Table 18. Crop failures by provinces, 1920
Table 19. Area of field crops by provinces, 1921
Table 20. Field crops by provinces, 1920
Table 21. Fruits on farms—trees, 1921, production and value, 1920, by provinces
Table 22. Fruits elsewhere than on farms—trees, 1921, production and value, 1920, by provinces
Table 23. Fruits on farms and elsewhere—trees, 1921, production and value, 1920, by provinces
Table 24. Vegetables by provinces, 1920
Table 25. Area of market garden by provinces, 1921
Table 26. Greenhouse and hothouse by provinces—areas, 1921, receipts, 1920
Table 27. Forest products of farms by provinces, 1920
Table 28. Live stock on farms by provinces, 1921
Table 29. Live stock elsewhere than on farms by provinces, 1921
Table 30. Live stock on farms and elsewhere by provinces, 1920
Table 31. Stock sold alive off farms on which raised, by provinces, 1920
Table 32. Stock slaughtered on farms by provinces, 1920
Table 33. Animal products on farms by provinces, 1920
Table 34. Animal products elsewhere than on farms by provinces, 1920
Table 35. Young animals raised on farms by provinces, 1920
Table 36. Farms reporting purchase of feed, fertiliser or seed through co-operative organization or otherwise, 1920
Table 37. Farm facilities by provinces, 1921

Pure-bred live stock

Table 38. Farms reporting pure-bred live stock by provinces, 1921
Table 39. Pure-bred horses and cattle by provinces, 1921 and 1911
Table 40. Pure-bred sheep and swine by provinces, 1921 and 1911
Table 41. Pure-bred poultry classified according to breed, by provinces, 1921 and 1911
Table 42. Pure-bred horses classified according to breed, by provinces, 1921 and 1911
Table 43. Pure-bred horses classified according to breed, by provinces, 1921 and 1911
Table 44. Pure-bred cattle classified according to breed, by provinces, 1921 and 1911
Table 45. Pure-bred sheep classified according to breed, by provinces, 1921 and 1911
Table 46. Pure-bred swine classified according to breed, by provinces, 1921 and 1911
Table 47. Pure-bred poultry classified according to breed, by provinces, 1921 (on farms)
Table 48. Pure-bred poultry classified according to breed, by provinces, 1921 (outside of farms)
Table 49. Pure-bred poultry classified according to breed, by provinces, 1921 (on farms and elsewhere)
GENERAL TABLES—Con.

Agriculture

Table 50. Condition of land on farms under 5 acres, by provinces, 1921 ........................................... 72

Chapter 16.—School Attendance in Cities and Towns (7,500 Population and Over) ... 130
CONTENTS

INTRODUCTION. ................................................................. 1

Data relating to Nationality, Birthplace, Language and Origin as collected by the Canadian Census...... 11
Use of the term “Origin” as distinguished from “Race”......................................................... 12
Practical difficulties in the “origin” classification............................................................... 13
Classification of mixed stocks.................................................................................. 14

SUMMARY.

Changes in the composition of the population of Canada since 1901........................................ 16
Nativity and length of residence.................................................................................... 17
Age, sex and conjugal conditions.................................................................................. 18
Distribution of immigrant stocks by provinces............................................................. 20
Urban and rural distribution......................................................................................... 22
Intermarriage................................................................................................................ 23
Naturalization.................................................................................................................. 26
Language spoken............................................................................................................ 27
Illiteracy............................................................................................................................ 27
Crime................................................................................................................................. 28
Occupations.................................................................................................................... 32
Fertility and infant mortality.......................................................................................... 33
Summary tables.............................................................................................................. 35

CHAPTER I.

Origins of the Population of Canada.................................................................................. 43-48
The proportion of specified origin in the population......................................................... 43
Numerical strength of stocks in Canada............................................................................ 44
Changes in the proportion of different stocks in Canada................................................. 46

CHAPTER II.

Distribution of Various Stocks and of Foreign Born according to Length of Residence......... 49-66
Proportion of different stocks Canadian born, United States born and born in countries
other than the United States............................................................................................ 49
The old and the new immigration..................................................................................... 54
The changing proportions of Canadian born and elsewhere born..................................... 58
Principal countries of birth of recent immigrants from Continental Europe.................... 62

CHAPTER III.

Composition of the Population of Various Stocks in respect of Sex, Conjugal Condition and Age 67-84
Sex composition of the population of various origins...................................................... 67
Conjugal condition and nativity....................................................................................... 75
Age distribution of the foreign born................................................................................. 76
Age distribution of the different stocks in Canada.......................................................... 81

CHAPTER IV.

Distribution of Population Stocks and Nativity Groups by Province................................ 85-103
Distribution of various stocks by provinces..................................................................... 85
The birthplaces of the population by provinces................................................................. 90
Extent to which each province has shared in total immigration....................................... 102
Number of immigrants in each province......................................................................... 103

CHAPTER V.

The Urban and Rural Distribution of the Population of Various Stocks in Canada.............. 104-115
Percentage of urban residents among the immigrant population for Canada and the provinces. 104
Rural and urban distribution as between provinces......................................................... 105
Urban and rural distribution by sex.................................................................................. 111
The extent to which the different stocks congregate in large cities.................................. 113

CHAPTER VI.

Origins and Intermarriage in the Registration Area in Canada.......................................... 116-139
The tendency to marriage within the same origin group.................................................. 117
Assimilation by intermarriage with the British and French............................................. 121
The relation between intermarriage, length of residence, surplus males and size of
origin groups.................................................................................................................... 125
Assimilability with the British........................................................................................... 134
The extent to which Continental European stocks have married within their own geo-
graphical groups.............................................................................................................. 138

CHAPTER VII.

The Naturalization of Immigrant Peoples......................................................................... 140-159
The proportion of foreign born naturalized in Canada in 1921........................................ 140
Naturalization among immigrant peoples from the United States.................................... 143
The effect of urban residence on naturalization................................................................. 145
Percentages naturalized by sex.......................................................................................... 148
Percentages naturalized by provinces............................................................................... 150
Speed of naturalization.................................................................................................... 156
CHAPTER VIII.

Origin and Language—the use of English and French by immigrant peoples
Proportion unable to speak English or French
Proportions of non-British and non-French origins acquiring English
Language, intermarriage and length of residence

CHAPTER IX.

Illiteracy and School Attendance as affected by the Origins and Nativity of the Population
Illiteracy among the foreign born of non-British and non-French origins
Relation of illiteracy to origin and other factors
Illiteracy as affected by birthplace
Illiteracy and rural and urban distribution
Sex and illiteracy
Illiteracy and inability to speak English and French
School attendance and illiteracy

CHAPTER X.

The Relation of Origins and Nativity to Crime
Nativity and convictions for indictable offences
Origins and nativity of the reformatory population
Sex and birthplace
Origin and birthplace
Rural and urban distribution
Origins and birthplaces of the penitentiary population
Introduction
Age and sex distribution of the penitentiary population
Conjugal condition of the penitentiary population
Birthplace of the penitentiary population
Citizenship of the penitentiary population
Origin of the penitentiary population
Parentage of the Canadian born in the penitentiary population
Date of immigration of immigrant penitentiary population
Mathematical appendix

CHAPTER XI.

Occupational Distribution of the Population
Occupations of the population by sex and birthplace
Proportions employed in specified occupations

CHAPTER XII.

Relation of Origins to Fertility, Infant Mortality, Blindness and Deaf-mutism
Fertility of the peoples of Canada
Proportions of children in the several origin groups
Birth rates in the prairie provinces, 1926
Correlation between fertility, rural domicile, illiteracy and length of residence in Canada
Infant Mortality
Deaf mutism and blindness

INDEX OF TABLES

SUMMARY

Table 1.—Summary table showing standing of the population of various origins in Canada according to specified headings, 1921
Table 2.—Verbal summary table showing standing of the population of various origins in Canada according to specified headings, 1921
Table 3.—Summary table showing standing of specified groups of origins in Canada according to specified headings, 1921
Table 4.—Summary table showing standing of immigrants by country of birth according to specified headings, Canada, 1921
Table 5.—Verbal summary showing standing of immigrants by country of birth, according to specified headings, Canada, 1921
Table 6.—Summary table showing standing of immigrants by groups of countries of birth according to specified headings

CHAPTER I

Table 7.—Proportion of various stocks in the population of Canada, 1921, as compared with 1911 and 1901
Table 8.—Population of Canada by origins, 1921
Table 9.—North Western and South, Eastern and Central European Population of Canada by origins other than British and French, 1921
Table 10.—Population of Canada, by linguistic grouping of origins, 1921. (British and French not included)
Table 11.—Numerical rank of principal stocks other than British and French, by specified groups, 1921
Table 12.—Number of various stocks in Canada, 1901, 1911, 1921 and percentage increases for decades, 1901 to 1911 and 1911 to 1921
CHAPTER II

Table 13.—Canadian born, United States born, and Elsewhere born, by origins in Canada, 1921

Table 14.—Per cent Canadian born, United States born and Elsewhere born of principal European origins in Canada, by geographical groups (French and British excepted) 1921.

Table 15.—Number Canadian born, United States born, and Elsewhere born of principal European origins in Canada by linguistic groups (French and British excepted) 1921.

Table 16.—Per cent Canadian born, United States born, and Elsewhere born, by origins, 1921.

Table 17.—Number Canadian born, United States born, and Elsewhere born of principal European stocks in Canada (French and British excepted) by geographical groups, 1921.

Table 18.—Per cent Canadian born, United States born, and Elsewhere born of principal European stocks in Canada (French and British excepted) 1921.

Table 19.—Per cent Canadian born, United States born, and Elsewhere born of principal European stocks in Canada by linguistic groups (French and British excepted) 1921.

Table 20.—Summary table of per cent Canadian born, United States born and Elsewhere born of certain stocks in Canada, by specified groups, 1921.

Table 21.—Proportion of population Canadian and Elsewhere born by country of birth, 1901, 1911, and 1921.

Table 22.—Number of Continental European born in Canada in 1901, 1911 and 1921 and per cent increase 1901-1911 and 1911-1921, by geographical grouping of countries of birth.

Table 23.—Number of Continental European born in Canada in 1901, 1911 and 1921, and per cent increase 1901-1911 and 1911-1921 by linguistic grouping of countries of birth.

Table 24.—Summary table showing percentage increase of the immigrant population in Canada by specified nativity groups, for the decades 1901-1911 and 1911-1921.

Table 25.—Principal countries of birth of Continental European immigrants to Canada in specified periods.

Table 26.—Number and percentage of immigrant population in Canada 1921, who arrived before 1901, classified by country of birth.

Table 27.—Percentage of Continental European born population of Canada in 1921 who arrived before 1901, by specified groupings of countries of birth.

Table 28.—The average number of years foreign born persons immigrating since January 1, 1901 have been in Canada, by specified countries of birth and the percentage of the foreign born from each country who arrived prior to 1901.

CHAPTER III

Table 29.—Population by origin and sex in Canada, 1921, with percentage of Males to Females for each origin.

Table 30.—Population of European origin (other than British and French) in Canada, by principal linguistic divisions, sex, with percentage surplus of males, 1921.

Table 31.—Population of European origin (other than British and French) arranged by principal linguistic divisions, by sex, with percentage surplus of Males, 1921.

Table 32.—Number and percentage of immigrant males and females in Canada, by birthplace, 1921.

Table 33.—Percentage of foreign born males and females and percentage surplus of males by geographical and linguistic grouping of countries of birth.

Table 34.—Summary table showing percentages of males and females and percentage surplus of males by geographical and linguistic grouping of countries of birth, 1921.

Table 35.—Percentage surplus of males in total foreign born population, compared with surplus of males among foreign born adults (21 and over), by country of birth, 1921.

Table 36.—Per cent surplus of males in total population compared with percentage surplus of males among adults (21 and over) for principal origins in Canada, 1921.

Table 37.—Percentage of foreign born males and females, sex, by origin, in Canada, for the nine provinces, 1921.

Table 38.—Percentage of foreign born males and females, sex, by specified countries of birth and the percentage of the foreign born from each country who arrived prior to 1901.

Table 39.—Percentage of foreign born males and females, sex, by specified countries of birth and the percentage of the foreign born from each country who arrived prior to 1901.

Table 40.—Percentage age distribution of various stocks in Canada in 1921.

Table 41.—Percentage age distribution of specified stocks in Canada in 1921, by linguistic and other groupings.

CHAPTER IV

Table 42A.—Percentage distribution of the population of various origins, in Canada, by provinces, 1901-1911-1921.

Table 42B.—Percentage distribution of the population of various origins in Canada, by provinces, 1901-1911-1921.

Table 43.—Percentage distribution of the population, by birthplace, for Canada and the provinces, 1911 and 1921.

Table 44.—Percentage distribution of Continental European born by provinces and geographical grouping of countries of birth, in Canada, 1911 and 1921.

Table 45.—Percentage distribution of Continental European born, by provinces and linguistic groupings, in Canada, 1911 and 1921.

Table 46.—Summary table showing percentage distribution by birthplace of population of Canada and the provinces by specified groupings of countries of birth, 1911 and 1921.

Table 47.—Provinces ranked according to percentage of population of specified birthplace in 1921.

Table 48.—Percentage of Foreign born and British born through the immigrant passages by provinces, 1921.

Table 49.—Percentage distribution of British born and foreign born immigrants by year of arrival in Canada, for the nine provinces, 1921.

Table 50.—Number of foreign born from nine main countries of birth, by provinces, 1921.
CHAPTER V

Table 51.-Percentage urban of immigrant population by country of birth, for Canada and the provinces, 1921.

Table 52.-Percentage urban of Continental European born, for Canada and the provinces, by geographical grouping of countries of birth, 1921.

Table 53.-Percentage urban of Continental European born, for Canada and the provinces, by linguistic grouping of countries of birth, 1921.

Table 54.-Summary showing percentage urban of immigrant population for Canada and the provinces, by specified grouping of countries of birth, 1921.

Table 55.-Percentage urban of male and female immigrants in Canada, by countries of birth, 1921.

Table 56.-Per cent of specified origins in cities 25,000 and over in Canada, 1921.

Table 57.-Per cent of specified origins in cities 25,000 and over, in Canada, by geographical grouping.

Table 58.-Per cent of specified origins in cities, 25,000 and over, in Canada, by linguistic grouping of origins, 1921.

Table 59.-Origin of parents of children born in the Registration Area in 1921.

Table 60.-Percentage of endogamous marriages among parents of children born in Registration Area.

Table 61.-Endogamy among parents of children of coloured races, 1921.

Table 62.-Endogamous marriages among the population of Continental European origins by geographical groupings, 1921 (as indicated by the parentage of children born in the Registration Area).

Table 63.-Endogamy among the population of Continental European origins by linguistic groupings, 1921 (as indicated by the parentage of children born in the Registration Area).

Table 64.-Summary showing percentage urban of immigrant population for Canada and the provinces, by specified grouping of countries of birth, 1921.

Table 65.-Percentage of married men and women of Continental European origin married into the British stocks and having children born to them in 1921, by geographical grouping.

Table 66.-Percentage of married men and women of Continental European origin married into the British stocks, and having children born to them in 1921, by linguistic grouping.

Table 67.-Summary table showing percentage of married men and women of Continental European origin married into British stocks by geographical and linguistic groups, 1921 (as indicated by the parentage of children born in the Registration Area).

Table 84.-Percentage naturalized of all foreign born compared with percentage naturalized in cities 25,000 and over, 1921.

Table 85.-Percentage of foreign born (1) naturalized and (2) urban, in Canada, by country of birth, 1921.

Table 86.-Citizenship of foreign born population in Canada classified according to birthplace and sex, 1921.

Table 87.-Percentage by which the proportion of foreign born females naturalized exceeds the proportion of foreign born males naturalized in Canada, by geographical groups of countries of birth, 1921.
CHAPTER VII—Concluded

Table 88.—Percentage by which the proportion of foreign born females naturalized, in Canada, by linguistic groups of countries of birth, 1921.

Table 89.—Percentage of foreign born naturalized for Canada and the provinces, by country of birth, 1921.

Table 90.—Percentage by which the proportions of foreign born naturalized in each province differed from the proportion naturalized for Canada, by country of birth, 1921.

Table 91.—Percentage of foreign born naturalized by provinces, and the foreign born and naturalized foreign born as percentages of total population in each province, 1921.

Table 92.—Range of fluctuations of percentages of foreign born naturalized, as between provinces, by countries of birth, 1921.

Table 93.—Range of fluctuations of percentages of foreign born naturalized as between provinces, by geographical grouping of countries of birth, 1921.

Table 94.—Range of fluctuations of percentages of foreign born naturalized as between provinces, by linguistic grouping of countries of birth, 1921.

Table 95.—Percentage naturalized

Table 96.—Percentage of the population 10 years of age and over! of British origin, reported as able to speak French. Percentage of the population of French origin reported as able to speak English, 1921.

Table 97.—Percentages 10 years of age and over unable to speak (1) English, (2) French or English, for the principal non-British, non-French origins in Canada, 1921.

Table 98.—Percentages 10 years of age and over unable to speak (1) English, (2) French or English, by geographical and linguistic groups of non-British and non-French origins, 1921.

Table 99.—Numbers and percentages of principal non-British and non-French origins, 10 years and over in Canada who had acquired English by 1921.

Table 100.—Percentages of principal origins, 10 years of age and over who did not know English as a mother tongue and had learned it by 1921.

Table 101.—Percentages 10 years and over of principal non-French or British origins speaking (1) English, (2) English or French, as mother tongue, 1921.

Table 102.—Percentages 10 years and over of principal European origins speaking (1) English and (2) English or French, as mother tongue, by geographical groups, 1921.

Table 103.—Percentage 10 years and over of principal European origins

Table 104.—Summary showing the relation between the learning of the languages of Canada and the type of French. Percentage of the population of French origin reported as able to speak English, for the principal non-British, non-French origins in Canada, 1921.

Table 105.—Percentages illiterate among the foreign born of the principal non-British and non-French origins, 1921.

Table 106.—Percentages illiterate among the foreign born of the principal non-British and non-French origins by geographical and linguistic groups, 1921.

Table 107.—Non-literate stocks in 49 census divisions of the prairie provinces.

Table 108.—Age and sex as factors in convictions for indictable offences in Canada.

Table 109.—Actual number of convictions for indictable offences in Canada in 1921, by broad nativity groups and the rates per 100,000 population of each group.

Table 110.—Comparative rates of criminality among the Canadian-born, British-born, and Foreign-born populations of Canada, with the bias due to differing age and sex distribution of these populations removed, 1921.

Table 111.—Reformatory population by sex and birthplace, 1921.

Table 112.—Parentage of the Canadian born reformatory population, 1921.

Table 113.—Reformatory population in Canada, by origin and birthplace, 1921.

Table 114.—Reformatory population in Canada, by groups of origins, 1921.

Table 115.—Number in penitentiaries, male and female, classified according to each sex by quinquennial age groups, 1921.

Table 116.—Number in penitentiaries, male and female, classified according to conjugal condition and number per 100,000 population of each group, 1921.

Table 117.—Number in penitentiaries per 100,000 population by nativity, sex and quinquennial age groups, 1921.

Table 118.—Number and rate per 100,000 of foreign born male penitentiary population aged 21 years and over in Canada, by country of birth, 1921.

Table 119.—Number of foreign born males in penitentiaries per 100,000 male population aged 21 years and over, of specified groups of countries of birth, 1921.

Table 120.—Citizenship of foreign born penitentiary population (both sexes) aged 21 years and over.

Table 121.—Origin of penitentiary population 21 years and over (both sexes) 1921.

Table 122.—Origin of penitentiary population (both sexes), 21 years and over, by specified groups of origins, 1921.

Table 123.—Origin and nativity of penitentiary population, 21 years and over, by specified groups, (both sexes), 1921.

Table 124.—Canadian born population of penitentiaries by nativity of parents, 1921.

Table 125.—Distribution of the immigrant male population of penitentiaries by birthplace and year of arrival, 1921.
Table A.—Convictions for indictable offences in Canada by age and sex.

Table B.—Males and females by specified age and nativity groups in Canada, 1921.

Table C.—Males in each age and nativity group as percentage of total male population of corresponding nativity in Canada, 1921.

Table D.—Females in each age and nativity group as percentage of total female population of corresponding nativity in Canada, 1921.

Table E.—Number of males per 100,000 male population of each nativity who would be convicted of indictable offences on the basis of uniform crime rates for males of all nativity groups.

Table F.—Number of females per 100,000 female population of each nativity who would be convicted of indictable offences on the basis of uniform crime rates for females of all nativity groups.

CHAPTER XI

Table 126.—Numbers and percentages of employed males and females of specified nativity groups in principal occupations in Canada, 1921.

Table 127.—Percentage distribution of employed males in specified occupations, by nativity, 1921.

Table 128.—Percentage distribution of employed females in specified occupations by nativity, 1921.

Table 129.—Percentage distribution of population of Canada, 15 years and over and of persons engaged in gainful occupations by sex and nativity, 1921.

Table 130.—Number of persons engaged in gainful occupations expressed as percentages of the total population 15 years of age and over, by nativity and sex, for Canada, 1921.

CHAPTER XII

Table 131.—Percentage of each origin under 10 years of age, 1921.

Table 132.—Percentage under 10 years of age of specified origin groups in Canada, 1921.

Table 133.—Birth rates per 100 women, 15-49 years, of specified origins, for the Registration Area of Canada, 1925.

Table 134.—Index of fertility, percentage of females (1) Rural (2) Illiterate (3) Proportion of population 21 years and over, North American born, for specified origins in the prairie provinces, 1926.

Table 135.—Number of deaths of infants under one year of age expressed as a percentage of number of births, by origins, for the Registration Area of Canada, 1925.

INDEX OF CHARTS

Chart 1.—Percentages of the population of Canada of British, French, other European and Asiatic origins in 1901 and 1921.

Chart 2.—Percentages of population of Canada, born outside of Canada, 1901 and 1921, by specified nativity.

Chart 3.—Percentages of European immigrants in Canada from North Western and South Eastern and Central Europe in 1901 and 1921.

Chart 4.—Surplus males per 100 females among immigrants in Canada, 1921.

Chart 5.—Percentage of population 15 years and over married, by sex and nativity groups, Canada, 1921.

Chart 6.—Percentage of specified foreign nationalities in the population of the provinces, 1921.

Chart 7.—Percentages of immigrants from specified countries of birth, domiciled in urban areas, 1921.

Chart 8.—Percentages of married males and females of specified origin married to British and French in Registration Area, 1921 (as indicated by the percentage of children born in that year).

Chart 9.—Number of males and females of foreign origin married into British stocks as a proportion of the number married outside their own stock; by specified groups of origins, Registration Area, 1921 (as indicated by the percentage of children born in that year).

Chart 10.—Naturalized foreign born as percentage of the total population by provinces, 1921.

Chart 11.—Proportion illiterate among foreign born, 10 years and over, for specified groups of countries of birth, 1921.

Chart 12.—Number per 100,000 children 10-20 years, in reformatories, for specified origin groups, 1921.

Chart 13.—Number of foreign born males in penitentiaries per 100,000 male population, 21 years and over, of specified nativity groups, 1927.

Chart 14.—Number in penitentiaries per 100,000 population 21 years and over of specified origins in Canada, 1921.

Chart 15.—Occupational distribution of male population by birthplace, 1921.

Chart 16.—Percentages of children under 10 years of age of specified groups in Canada, 1921.

CHAPTER II

Chart 17.—Percentage Canadian born of specified origins other than British and French in 1921.

Chart 18.—Percentages of specified origin groups Canadian born, United States born and Elsewhere born, 1921.
